

MATRIX | PERSONAL TRAINER PORTAL

BUILD MEMBER LOYALTY THAT LASTS.

CONNECT & ENGAGE

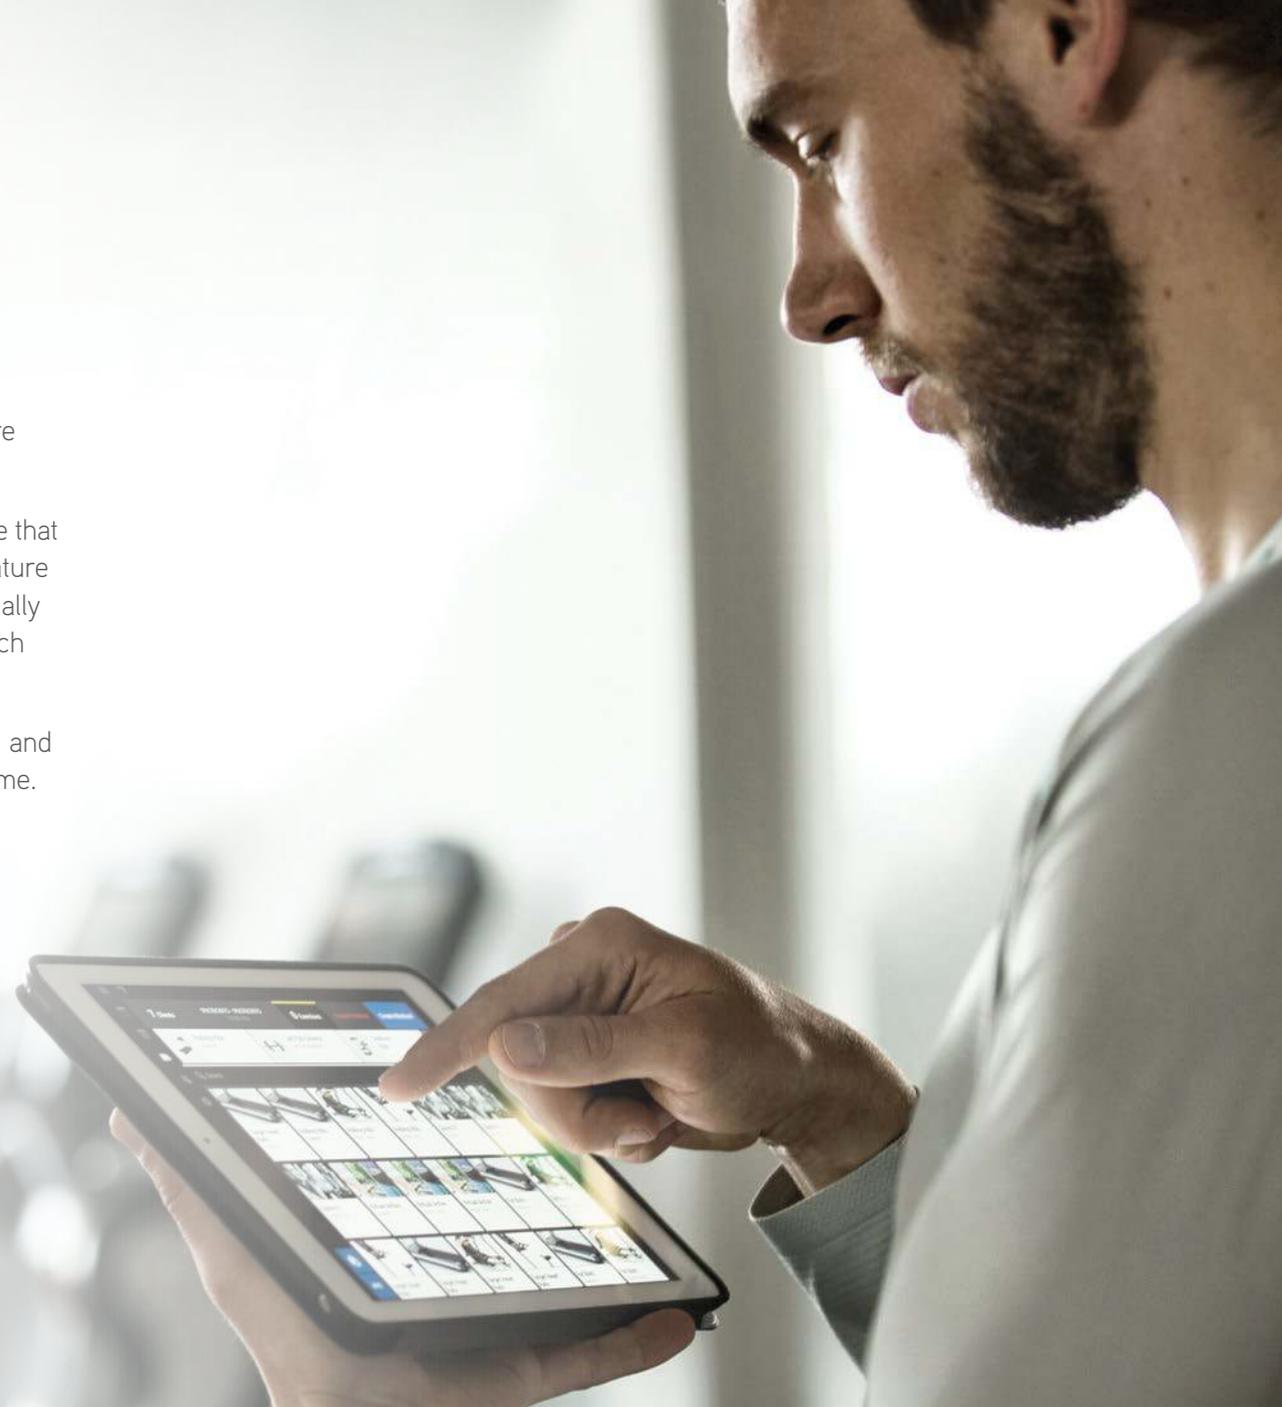

Help your trainers connect and engage with members like never before using our Personal Trainer Portal.

This exclusive technology solution offers an intuitive dashboard interface that is easy for trainers to navigate. In just moments, they can create signature exercise programs, assign workouts and check progress through virtually any internet-connected device to help members stay on track and reach their unique goals.

Start forging stronger relationships with personalized training options, and you'll build lasting member loyalty that pays dividends for years to come.

TRUE FLEXIBILITY

We want Personal Trainer Portal to work for you, your staff and your facility, so we created an interface that's easily customizable. That means that your brand is strongly represented throughout Personal Trainer Portal, and you can use the terminology that your trainers, staff and members are already comfortable using.

Today's Assignment
Rolling Hills

Total Time:	Program Level	Starting Speed
30 mins	5	2.0 mph

EASY ACCESSIBILITY

Personal Trainer Portal allows members to instantly provide feedback and access training schedules via compatible consoles or wireless devices. They can also share data — like nutrition and daily activity from an integrated fitness tracker — with their trainers to encourage accountability and maximize results.

PREMIUM COMPATIBILITY

Personal Trainer Portal is compatible with the Matrix 7xi and 7xe suite of products and built within the Workout Tracking Network framework. By purchasing these two platforms, collecting data from assigned tasks is effortless.

Personal Trainer Portal seamlessly connects with popular third-party apps and wearables like Fitbit, MyFitnessPal, MapMyFitness and more, so your members are never limited to a specific machine or venue when it comes to getting credit for their hard work.

NEW REVENUE STREAMS

Personal Trainer Portal supplements your new and existing personal training business by appealing to members who might have been hesitant to participate in traditional personal training sessions in the past. It is another way for them to receive customized guidance to help them reach their goals and stay engaged with your facility.
